SEPARATE SEALED PROPOSALS for furnishing stationery and executing printing for for this department during the year ending June 30, 1846, will be received until 3 o'clock of Monday, the 30th of June next. Those unaccompanied by satisfactory testimonials of ability to fulfil a contract will not be considered.

All the articles of stationery must be of the very best quality—samples of the principal articles of which, such as paper, quills, metallic pens, lead pencils, Knives, ink, &c., must accompany the bids. No bid will be considered where the articles accompanying it are not of the kind and quality required for the department. The articles must be equal in all respects to the samples, which may be seen in the department; and the printing must be executed with new and perfect type, and on the best paper used for the different descriptions required. The paper for the printing will be furnished by the contractor. The articles and work will be required from time to time as they are wanted, and will be paid for quarterly; and a failure to execute any requirement of a contract, of which the head of the department will be the final judge, will cause a forfeiture of the contract. To insure a faithful execution of the contract, a bond, with two or more sureties in each case, will be required within one week after notification of the acceptance of a bid. The names of the surcties that will be given, must be stated in the bid; and, if they are not satisfactory, the bid will not be considered.

The subjoined lists specify, as nearly as can now be done, the amount, quantity, and description of each of the kinds of the articles and work that will be wanted; but the department will reserve the right to require more or less as circumstances may render necessary. To insure uniformity in the bids, forms embracing the quantities and descriptions of the articles and work that may be required, will be furnished to those diaposed to bid.
